MOSTRA DE LES SEVES VALORACIONS FINALS

<p>We loved the content of the subject, but we would suggest to add more hours, as we think it is very interesting. It has overcome our expectations.</p> <p>As we did not know exactly what we were going to study, everything has been very welcomed and profitable for us.</p>	<p>We think that our expectations have been covered and have gone beyond it. We have learnt more things thanks to our partners' task sequences. We have learned how to create very creative tasks and activities in order to motivate our students and work plurilingualism while working in useful and contextualized projects and tasks.</p>
<p>We believe the expectations we had the first day have been covered considering the lack of time. Moreover, we have learnt more things such as some classroom management aspects.</p>	<p>Considering the 1st expectation, it has been completely achieved. Although the other expectations have not been accomplished we have worked deeply other interesting aspects that will be useful for our future.</p>
<p>Our expectations have been covered except the last one, which was very specific.</p> <p>As an overall we can say that although being a short module, it was interesting.</p>	<p>Our expectations have been covered taking into consideration the points we mentioned on the 1st class of the Module. Although we and that it has been done in a very short time, fact that has led us to interiorize the different content treated without a deep reflection on it.</p>
